SUMMARY

Motivated and enthusiastic Computer Science Engineering graduate with a strong foundation in Java, Python, Data Structures, and web technologies. Experienced in developing academic projects involving Machine Learning and CNN-based image classification. Completed Java Full Stack Development training with hands-on exposure to frontend and backend technologies. Passionate about software development, learning new technologies, and applying problem-solving skills to real-world challenges.

LANGUAGES

English | Kannada

INTERESTS

Software Development | Artificial Intelligence & Machine Learning | Web Development | Problem Solving | Learning New Technologies

EDUCATION

Jain Institute of Technology

B.E – Computer Science and Engineering | CGPA: 8.4

Sri Siddheshwara PU College

PUC – PCMB | Percentage: 83.16%

Sri Sathya Sai Vidyanikethan English Medium High School

SSLC | Percentage: 85.92%

2022 – 2026

Davangere

2020 – 2022

Davangere

2018 – 2020

Shastri Halli

ACADEMIC PROJECTS

Automated Non-Invasive Detection of Neonatal Jaundice Using CNN

Developed a non-invasive neonatal jaundice detection system using CNN-based image classification and a yellow intensity heuristic algorithm to analyze skin tone from uploaded photos. Built a web application for real-time image processing and instant diagnosis, eliminating the need for invasive blood tests.

Stress Detection Using Machine Learning

Developed a stress detection system using machine learning to classify stress levels based on physiological and behavioral input data. Implemented effective data preprocessing and analysis techniques to achieve accurate predictions, enabling early identification of stress without manual assessment.

INTERNSHIP

Java Full Stack Development Course – QSpiders

Successfully completed a Java Full Stack course at QSpiders, gaining hands-on knowledge in Core Java, advanced Java, and full stack web development. Worked on projects involving frontend and backend integration while strengthening problem-solving, technical, and teamwork skills.

TECHNICAL SKILLS

- **Programming:** Java, Python, DSA.
- **Web Technologies:** HTML, CSS, MySQL.
- **Version Control:** Git, GitHub.

SOFTWARE SKILLS

VS Code | Eclipse

CERTIFICATIONS

Successfully completed certifications in Artificial Intelligence and Data Science from Infosys Spring Board and Machine Learning through Coursera.

DECLARATION

I declare that all the details mentioned above are true and accurate.
